

**USDA-ARS/  
U.S. Wheat and Barley Scab Initiative  
FY15 Final Performance Report  
Due date: July 15, 2016**

**Cover Page**

<b>Principle Investigator (PI):</b>	Yanhong Dong
<b>Institution:</b>	University of Minnesota
<b>E-mail:</b>	dongx001@umn.edu
<b>Phone:</b>	612-625-2751
<b>Fiscal Year:</b>	2015
<b>USDA-ARS Agreement ID:</b>	59-0206-4-023
<b>USDA-ARS Agreement Title:</b>	Diagnostic Services for DON.
<b>FY15 USDA-ARS Award Amount:</b>	\$ 235,828
<b>Recipient Organization:</b>	Regents of the University of Minnesota Suite 450 Sponsored FIN RPT-P100100001 Minneapolis, MN 55455-2003
<b>DUNS Number:</b>	555917996
<b>EIN:</b>	41 -6007513
<b>Recipient Identifying Number or Account Number:</b>	CON000000048310
<b>Project/Grant Reporting Period:</b>	05/19/15-05/18/16
<b>Reporting Period End Date:</b>	05/18/16

**USWBSI Individual Project(s)**

<b>USWBSI Research Category*</b>	<b>Project Title</b>	<b>ARS Award Amount</b>
FST-S	Diagnostic services for DON.	\$ 235,828
	<b>FY15 Total ARS Award Amount</b>	<b>\$ 235,828</b>

\_\_\_\_\_  
Principal Investigator Date

\* MGMT – FHB Management  
 FST – Food Safety & Toxicology  
 GDER – Gene Discovery & Engineering Resistance  
 PBG – Pathogen Biology & Genetics  
 EC-HQ – Executive Committee-Headquarters  
 BAR-CP – Barley Coordinated Project  
 DUR-CP – Durum Coordinated Project  
 HWW-CP – Hard Winter Wheat Coordinated Project  
 VDHR – Variety Development & Uniform Nurseries – Sub categories are below:  
 SPR – Spring Wheat Region  
 NWW – Northern Soft Winter Wheat Region  
 SWW – Southern Soft Red Winter Wheat Region

**Project 1:** *Diagnostic services for DON.*

**1. What are the major goals and objectives of the project?**

The goal of this project is to provide rapid, cost-effective and accurate mycotoxin analysis - especially deoxynivalenol (DON) - for Fusarium Head Blight (FHB or scab) research projects.

**2. What was accomplished under these goals?**

**3.**

1) major activities:

Analyzed DON and related mycotoxins in wheat, barley and fungal culture extract using GC-MS; grinded grain seeds; extracted DON from grain samples; and prepared purification columns.

2) specific objectives:

Provided reliable DON analysis services to the projects funded by the USWBSI and ensured PIs to get their results in a timely manner.

3) significant results:

From July 2015 to May 2016, our laboratory analyzed 27,456 samples (**Table 1**) submitted by 37 scab research groups from 19 states including Arkansas, Delaware, Georgia, Idaho, Illinois, Kansas, Kentucky, Louisiana, Michigan, Minnesota, Missouri, New York, North Carolina, North Dakota, Ohio, Pennsylvanian, South Dakota, Texas, and Wisconsin. The samples included 22,988 regular mature grain samples (4-100 g) and 4,468 small size samples such as grain samples less than 4 g, single kernel, single spikelet, single head, small stem, and fungal culture extract. The target toxins included DON, 15-Acetyl-DON, 3-Acetyl-DON, and nivalenol. Zearalenone was analyzed for those samples submitted by Dr. Carl Bradley's project with an approval from the Executive Committee. Although we analyzed more samples this year compared with last year (25,888), the number of samples submitted to our lab was still less than the amount of samples that we anticipated to receive based on the survey (32,491) that we conducted before submitting the proposal.

4) key outcomes or other achievements:

The DON data has been used in all areas of scab research. By analyzing mycotoxins, the project provided support to barley and wheat breeding programs to develop resistant varieties, and to researchers to study disease mechanisms and to develop effective chemical and biological disease controls. Mycotoxin data provided to scab researchers by our laboratory gave them a means to evaluate the effectiveness of their efforts in fighting Fusarium Head Blight.

**3. What opportunities for training and professional development has the project provided?**

Nothing to report.

**4. How have the results been disseminated to communities of interest?**

The results were emailed to researchers, and were then disseminated to communities of interest via conference papers and presentations, and journal publications.

FY15 Final Performance Report  
 PI: Dong, Yanhong  
 USDA-ARS Agreement #: 59-0206-4-023

**Table 1. Summary of 2015/2016 samples**

PI	Number of samples			Institution
	Analyzed	Estimated	Difference	
Alyssa Collins	167	0	167	Pennsylvania State University
Anne McKendry	1060	800	260	university of Missouri
Brian Steffenson	270	3000	-2730	University of Minnesota
Carl Bradley	1639	3200	-1561	University of Kentucky
Christina Cowger	295	500	-205	USDA-ARS, Raleigh, NC

### **Training of Next Generation Scientists**

**Instructions:** Please answer the following questions as it pertains to the FY15 award period. The term “support” below includes any level of benefit to the student, ranging from full stipend plus tuition to the situation where the student’s stipend was paid from other funds, but who learned how to rate scab in a misted nursery paid for by the USWBSI, and anything in between.

- 1. Did any graduate students in your research program supported by funding from your USWBSI grant earn their MS degree during the FY15 award period?**

No.

**If yes, how many?**

- 2. Did any graduate students in your research program supported by funding from your USWBSI grant earn their Ph.D. degree during the FY15 award period?**

No.

**If yes, how many?**

- 3. Have any post docs who worked for you during the FY15 award period and were supported by funding from your USWBSI grant taken faculty positions with universities?**

None.

**If yes, how many?**

- 4. Have any post docs who worked for you during the FY15 award period and were supported by funding from your USWBSI grant gone on to take positions with private ag-related companies or federal agencies?**

None.

**If yes, how many?**

**Release of Germplasm/Cultivars**

**Instructions:** In the table below, list all germplasm and/or cultivars released with full or partial support through the USWBSI during the FY15 award period. All columns must be completed for each listed germplasm/cultivar. Use the key below the table for Grain Class abbreviations. *Leave blank if you have nothing to report or if your grant did NOT include any VDHR-related projects.*

Name of Germplasm/Cultivar	Grain Class	FHB Resistance (S, MS, MR, R, where R represents your most resistant check)	FHB Rating (0-9)	Year Released

Add rows if needed.

**NOTE:** List the associated release notice or publication under the appropriate sub-section in the ‘Publications’ section of the FPR.

**Abbreviations for Grain Classes**

- Barley - BAR
- Durum - DUR
- Hard Red Winter - HRW
- Hard White Winter - HWW
- Hard Red Spring - HRS
- Soft Red Winter - SRW
- Soft White Winter - SWW

## **Publications, Conference Papers, and Presentations**

Refer to the FY15-FPR\_Instructions for listing publications/presentations about your work that resulted from all of the projects included in the FY15 grant. If you did not have any publications or presentations, state 'Nothing to Report' directly above the Journal publications section.

### **Journal publications.**
